MEMORANDUM FOR: Executive Officer

FROM: 25X1
                    Chief, Security Education Staff

SUBJECT: Update on Current Security Issues Briefing   25X1
                    Program

      1. The Current Security Issues Briefing Program initiated
in July 1986 continues to attract interest from a diversified
cross-section of Agency components. Feedback from briefing
recipients has been overwhelmingly positive, with many offices
scheduling multiple briefings and several Area Security   25X1
Officers recirculating the original memo in response to
requests for more information regarding the Office of Security
(OS). In addition, comments from OS briefers have surfaced an
unanticipated benefit in that they, too, have learned from this
initiative by gaining first-hand insight into how OS and its
programs are perceived by other Agency components. Hence, we
are learning from each other and moving towards dispelling
misconceptions.   25X1

3. As the Security Education Staff (SES) merely coordinates the requests for briefings, the success of the program is directly attributable to the many OS managers and briefing personnel who have given their time and total cooperation to this effort. SES wishes to express appreciation to all who have been involved and looks forward to continued support in future endeavors.
